# GLOBAL POWER BROKER

In addition to putting together 8–9 figure deals, Dr. Pam has: **Served as a strategic advisor to several governments, energy companies and investors throughout Africa.**

**Worked as a Government Relations and Federal Specialist** for organizations like American Gas Association and Zurich International and coordinated with executive and legislative branches during the tenures of President Bush, President Obama, and President Trump.

**Unlocking Africa** – one of the last places in the world to experience double-digit growth. Dr. Pam serves as a guide to help companies learn where and how to invest in and unlock opportunities.

# Dr. Pamela Sitienei

## Founder & CEO African Energy Association

### United States of America (USA)

Staff and students of Masinde Muliro University of Science and Technology (MMUST) are proud to be associated with the young and vibrant Dr Pamela Sitienei as the Chairperson of Council to take the University to the next level. She brings a wealth of global experience gained from across the world.

Dr. Sitienei is a graduate from the University of Central Oklahoma with a degree in Journalism and Public Relations. She received, **The Prince of Wales Business and Sustainability Leadership Certification** from the University of Cambridge, London, United Kingdom. She holds a Doctorate in Divinity from My Life Bible College in Maryland, USA. She is also a certified lobbyist by the United States Government Relations Professionals.

When Global brands want access to some of the fastest-growing economies in the world, they call Dr. Pamela Sitienei. She has raised over 300 million dollars in project investments and her project investments now have over a billion-dollar valuation.

Her experience in lobbying, networking and fund raising are critical for the development and internationalization of Masinde Muliro University of Science and Technology.

As the Founder and Chief Executive Officer of the ONAPS Advisory LLC and Chief Vision Officer, Dr. Sitienei brings more than 17+ Years' experience of multi-faceted experience in government relations, foreign relations, fund mobilization, international trade, financial services, energy, commodity trading and negotiations. Culturally astute and discerning in her approach, Dr. Sitienei has an extraordinary track record for structuring complex deals around the globe with major corporations, governments and high-ranking officials. Her ability to nimbly operate in various business capacities has persuasively broadened her reach across continents and industries.

The multilingual, Dr. Sitienei has easily afforded herself a seat at the global roundtable. An entrepreneur at heart, Dr. Sitienei envisions her role as the most influential, effective and independent voice of Project development in Africa and beyond. In her capacity as Founder and CEO of ONAPS, she leads the operations of the organization from site development, feasibility, fund mobilization, team creation, contract negotiations, merging & acquisitions in the areas of Energy, Defence, Pharmaceutical Distribution, Real Estate Development, Mining, Information Technology, and Financial structure with top lenders in the world.

During her tenure as the Government Relations/Federal Affairs Specialist, at the American Gas Association (AGA) on Capitol Hill, she gained exposure to policy issues in natural gas and actively liaised with the federal government, to include the executive and legislative branches of former President George Bush, President Barack Obama and President Donald Trump. Her portfolio was State affairs and Federal with emphasis on Renewables, Pipeline Safety, Cybersecurity, Budget under Appropriations, Energy & Natural Resources, Energy & commerce and financial committees.

Prior to joining AGA, Dr. Sitienei spent four years at Zurich North America/Zurich Financial Services. She supported the Vice President's efforts to lobby, build coalitions and sustain relationships with different multi-lateral institutions including, International Finance Corporation, OPIC, World Bank – MIGA and International Monetary Fund. As the manager of the Government & Industry Affairs, she developed business relations with emerging markets; defined project scope, goals and deliverables, which supported the company's business goals in collaboration with senior management & stakeholders. She interpreted and ensured consistent application of organizational policies; negotiated contracts, maintained financial records and managed the department budget of over \$20million.

On unlocking Africa, one of the last places in the world to experience double-digit growth, Dr. Sitienei serves as a guide to help companies learn where and how to invest in and unlock opportunities. She serves as a strategic advisor to several governments, High net worth personalities, energy companies and investors throughout Africa, specifically, Democratic Republic of Congo, Nigeria, Angola, Republic of Congo, Guinea Conakry, Mozambique, South Africa, Namibia, Equatorial Guinea and Kenya. She currently serves on the board of Women Global Leadership Institute and AGTIS, Dubai, UAE.

With such academic grounding, professional expertise and global exposure, we are confident that Dr. Sitienei will certainly transform MMUST to higher global heights.
